

Romantic Vacations

Relaxed Tropical Weddings

A relaxed tropical wedding on a beautiful island can be extremely romantic. Imagine gorgeous flowers in your hair, being barefoot by the sea, palms swaying in the gentle trades. Renting an entire island, luxurious tropical spa resort, or a series of private villas can be the perfect solution for accommodating your special guests and enjoying your glorious event, all in one location. Family and friends can come together to celebrate and share sumptuous dinners, but still have time alone time to relax into their own personal vacations. Disappear with your spouse for a romantic afternoon without being disturbed and reunite from the day with an afterglow from the sun. Dine with family and friends as your own private chef creates an unforgettable tropical meal outside by the pool or on the sand. The lapping waves create soothing sounds for evening entertainment and conversation. Share laughter and capture extraordinary memories that will be enjoyed for years for all who attend. Relax, have fun and reconnect with those you care about most. Tropical Living offers exquisite properties for your wedding on some of the most spectacular island hideaways around the world.
